

UMH TODAY

UMH has recently gone through major renovation in terms of building, equipment and facilities, to meet the requirements of modern era, which is now a global secondary care air conditioned hospital. It caters to the needs of our communities, providing quality care at affordable rates. We have a wide range of services to offer by a great team of doctors and surgeons on our panel.

HISTORY OF UMH

The journey of Usman Memorial Hospital started in March 1975 by Haji Hasham Kath in the memory of his late son Mohammad Usman. The hospital was operational in April 1982, serving the communities.

MESSAGE FROM HUSSAIN HASHAM

Foundation Chairman, UMH

On behalf of the Trustees of Usman Memorial Hospital Foundation, I would like to congratulate the UMH management team for bringing out the first edition of their newsletter, Health Matters.

Over the last 30 years we have come a long way and during this period health care has gone through significant changes. To meet these challenges, UMH was completely closed for two years for major renovations and upgrading of all hospital equipment. Alhamdulillah, the new UMH is now commissioned and providing quality healthcare at reasonable cost.

I am grateful to our donors for their generosity, which helped us to make a positive impact and optimistic about the future road map, evolving, adapting and reaching out to communities.

MESSAGE FROM DR. TUFAIL BAWA

Managing Trustee, UMH

Our belief is that health and healthy lifestyle is a basic right of every human being, contributing to this world with their full potential. Keeping this in mind, the trustees of UMH Foundation after lengthy brainstorming have set out the vision and also drawn a road map for 50 years. The very purpose of this is to serve the humanity to please the Almighty. UMH is one of the steps in our road map. Alhumdulillah, this step is now accomplished.

Building a health care facility in Pakistan is a challenge and to convert an existing building into a facility to meet the needs of the modern health care is even a bigger challenge. I am grateful to our Trustees, who not only provided the necessary funding for the project but also contributed their time and expertise. We feel lucky that we have an excellent and skillful management team, who has worked very hard with full zeal and dedication to make this hospital functional and operational. To take this initiative even further, I invite all those who agree with our vision to come and join hands with us and contribute in any way you can for this project.

Surge Laboratories
DMC-Central
PharmEvo

CASE STUDY OF PATIENT FEEDBACK

“ I was hit by a truck, which dislocated my hip, resulting in various surgeries and treatments but was unable to walk and work. We faced severe financial crisis. Eventually I was referred to UMH, which was a life changing experience after suffering for 16 months; I am now on my feet and so thankful to the doctor who treated me. The care and level of service which I received at UMH was exceptional. ”

Sajid's - UMH Patient

MANAGEMENT TEAM

**MAZHAR
AHMED SIDDIQUI**
| Director Operations

At Usman Memorial Hospital we are driven by our mission. We have revamped the structure to meet the current needs and delighted to have gone from strength to strength. We look forward to going ahead from what we have achieved so far, in order to be of better service to you.

**DR. FARAZ
HASHMI**
| Director Medical Service

We are pleased to welcome our patients at Usman Memorial Hospital, with the updated state of the art facility and equipment. It's a constant strive to ensure the best standards of patient care; which involves continuous improvement in the processes to deliver better care at the most affordable prices.

WINNING HEARTS

ROSHAN APA

"It has been a fulfilling journey of over 3 decades at UMH for me. I have assisted in a number of deliveries, bringing babies in this world! Especially answering queries of the first time moms brings a sense of satisfaction. The sight of a new mom lifting up her baby brings a smile to my face! The motivation of caring for my patients and easing their pain is so rewarding that it keeps me determined day in and day out. The kind of support I receive from my colleagues and acknowledgment by the management over these years helped me use my full potential and made UMH part of my family".

FAUZIA

Suffering from polio did not stop me from living with my head high and I always desired to work. In 1998 UMH offered an environment which gave me the courage, by not discriminating against my physical disability. Working as a reception in-charge had many challenges. My jobs required to be best at public dealing, welcoming patients with a smile, while directing them with urgency! There were occasions when patients came in need of medical help but were unable to pay, I was proud to direct them to the Patient Welfare Fund. One word to describe my experience at UMH is "Humanity".

SOHBAT

I joined UMH in 2004 as a driver. My work is to ensure that doctors reach safely in time to provide medical care to patients and I feel it's a great responsibility! I have 7 children all born at UMH, this makes it home for me and my family. Once I was held at gunpoint and eventually when I was able to reach back, the top management was standing in parking lot worried and waiting for my safe return. That moment is still vivid in my mind, which I will always cherish! In all the 16 years I have worked with honesty, integrity, hard work, enjoying my work each day.

PATIENT WELFARE

At UMH the Patient Welfare program is to ensure the right people are getting welfare help that they need. To process all this, along with charity & donations there is an amount of Zakat collected as well. We are all aware that Zakat is one of the main pillar of Islam, followed by its own rules & regulations, which need to be enforced. Therefore, we make sure the procedure of collection & distribution of funds laid down by the Sharia law are being followed.

With the growing demand, the hospital needs your support to continue providing this life saving service!
